Dear Anne,

Please find enclosed a copy of the family tree that I am currently creating. I would like to hear your views and see if any of the early dates correlate to your information.

I did not make the following connection until now, but if you notice the names of the offspring of Thomas Wheelock of Shawbury their names are very close to the kids of Mary and Richard. I believe this is more than a mere coincidence if you replace Richard his youngest and replaced it with Thomas we basically have the same.

The dates prior to 1727 at this stage are speculative but are very close to the mark.

Hope to hear from you soon.

Sincerely Yours

Thomas

Dear Thomas,

Thank you for the information you sent me by post. I have now waded through it and unfortunately cannot see any connection with my family. However I will put on file and should I later find a connection I will be in touch. The date of the marriage of Robert and Mary, unfortunately, did not tally either. Never mind that is family history for you!

I said I would let you have the name of the researcher who has an index of Staffordshire settlement certificates held at the Stafford County Record Office.

Mr W. J. Kemp,

If ever you need the Index of Staffordshire Marriages, it is held by:

Chris Smith,

Good luck researching!

All the best
